

PROTECTION FRAMEWORK

EN ISO 20345: 2022 – Safety footwear used for general purposes. It includes, for example, mechanical risks, slip resistance, thermal risks, ergonomic behaviour.

For professional use:

Fishing - agriculture - food industry – cleaning, or other activities requiring this kind of protection.

PERFORMANCE
EN ISO 20345 (S4+CI)

S4 = Basic safety requirements + antistatic footwear + energy absorption in the heel region of at least 20 J + toe cap

CI = Cold insulation

PRINCIPAL MATERIALS

Polyurethane

Easy to clean and disinfect

INSTRUCTIONS

- **CARE**
 - Clean the boots after every use with water and soap, using a soft brush.
 - Rinse away the remains of the detergent with water.
 - Allow to dry well at room temperature and in the shade.
- **STORAGE**
 - Store the boots in a well-ventilated and dry place.

THIS ARTICLE IS A

CATEGORY 2 PPE

(PPE = Personal Protective Equipment)

And complies with EU regulation 2016/425, as amended to apply in Great Britain

ILLUSTRATION AND INSTRUCTIONS

Hydrolysis resistance (hydrolysis = chemical breakdown due to reaction with water)

Heel lug on boots for easy kick-off

Heel energy absorption

Removable insole

Steel toe cap resisting an impact of over 200 J and compression of up to 15kN for loads (1.5 tonnes)

Excellent protection on icy surfaces, withstanding temperatures as low as - 70°C

Antistatic and non-slip sole with extra deep tread pattern

Sole resistant to acids and organic solvents, oils and grease

For maximum protection, check the condition of your boots thoroughly before each use.

DO NOT USE the boots if the protective parts (i.e. toe cap, sole) are damaged.

Colour : navy, orange, green

Sizes: 37-38-39-40-41-42-43-44-45-46/47

The lifespan of the boots is linked to conditions of use and quality of care
